

## Planning by Neighborhood

At 6:30pm on Tuesday there is a 7.1 earthquake on the Hayward fault impacting the entire Bay Area. 9-1-1 is overwhelmed and cell phones are not working. BART is closed and part of the freeway system in Oakland is down. There is debris everywhere, particularly from falling glass and un-reinforced masonry. The power stations are down and many power lines have collapsed. Interstate 280 has collapsed at Cesar Chavez and is blocking all access to the Food Bank.

Your agency, the San Francisco Dining Hall, runs two congregate meal sites in the neighborhood.

- . Site 1 is a kitchen and dining area serving lunch to 250 people.
- . Site 2 is a dining area, serving lunch to 200 people.
- . All lunches are prepared in the kitchen on site 1.

You always have enough supplies on hand for 3 days. Much of your stock comes from the Food Bank.
